

TechChange

We build beautiful and engaging
online courses on topics that matter

Founded in 2010 and headquartered in Washington DC

TECHCHANGE LEARNING COMMUNITY

● 10,000+ students

● 198 countries

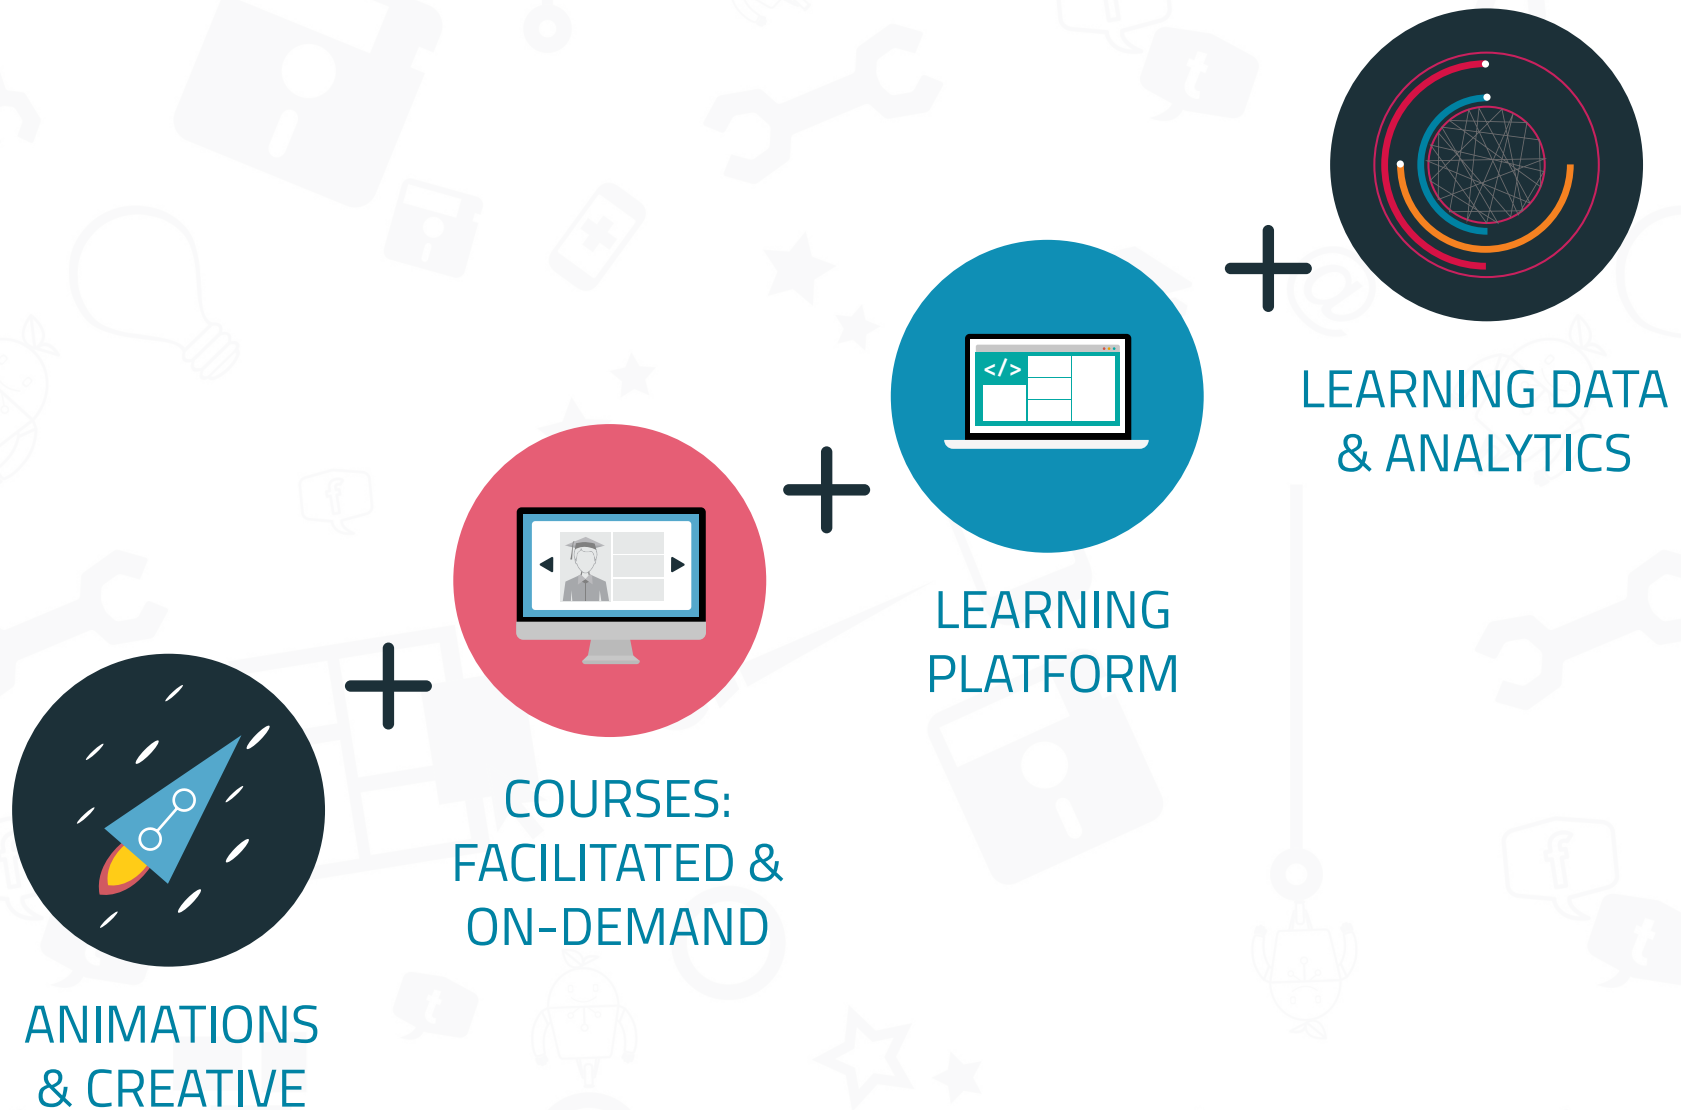

● 1,500+ organizations

OUR CLIENTS

THE BUILDING BLOCKS OF OUR MODEL

We can engage with you at any point during this process

WHAT WE DO

We bring our creative, instructional design, marketing, and technical expertise to you to build out a custom learning experience that meets your needs.

Assess

We evaluate your needs, establish goals, and determine the best type of online learning solutions for your organization or project

Build

Then we design, storyboard, and deliver courses based on those goals

Engage

We work with you every step of the way to grow and engage your audience

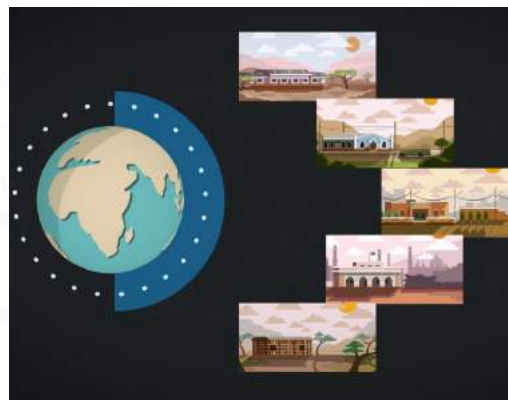

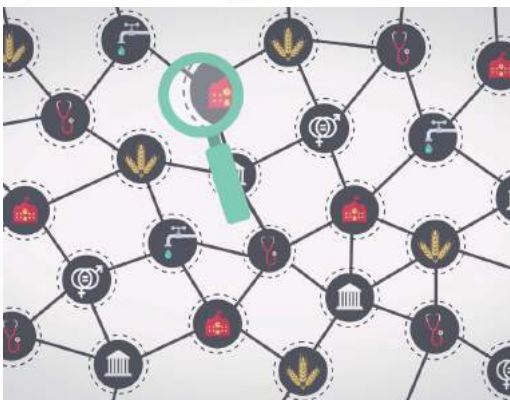

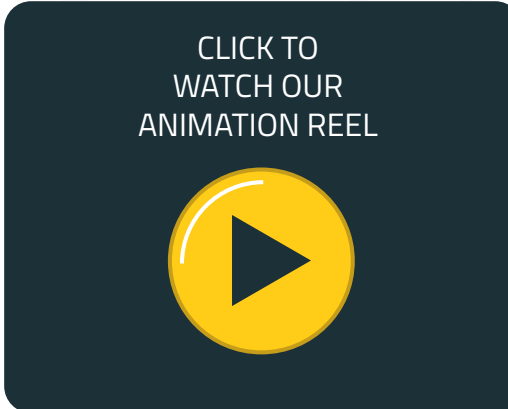

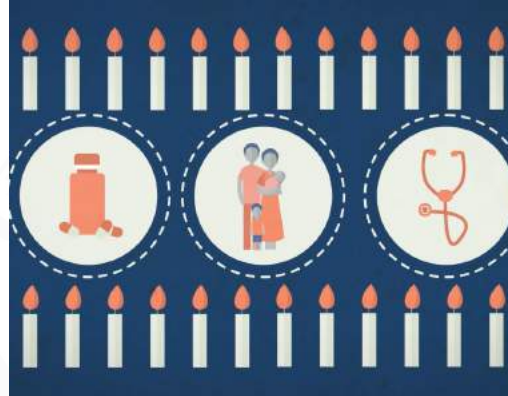

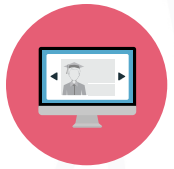

Measure

Finally, we capture relevant data in order to improve your learning experience

Welcome to USAID311: Mobile Data Solutions

mData Course Introduction

1. Fill Out a Profile and Add a Picture

Start by filling out your profile. You'll notice that some of the information from your application has been automatically transferred to your profile but there are a few additional fields. Also be sure to upload a picture of yourself!

2. Introduce Yourself to the Class

Now head to the [introduction thread](#) and say hello to your classmates. Tell us what inspired you to take the course and share your first memory of technology. Extra points if you can name this technological artifact!

Module 2: HIV in Our Communities

News Feed:

 Breno Biagiotti posted an update 3 weeks, 1 day ago
I know a brazilian course called TELELAB (www.telelab.aids.gov.br) wich have good information about HIV/AIDS. It's totally free and give certificate.

 Kenneth Woodson wrote a new reply 3 weeks, 3 days ago
My role as a public health professional is to provide accurate information and knowledge when talking to the public about HIV/AIDS education.

 Kenneth Woodson wrote a new reply 3 weeks, 3 days ago
It is important to address why people infected with HIV want to wait to start ART. A major issue to address is the ability to adhere to treatment on a daily basis. ART is a lifelong commitment and staying committed is tough, but realizing the need to adhere to medications can lead to a longer and healthier life as a result. In addition, another...

 Kenneth Woodson started a new topic 3 weeks, 3 days ago
Some people choose not to test for HIV because they fear being infected and they persist in the belief that not knowing is better than knowing, and they further believe that they are immune or invincible to HIV, thus they talk themselves out of testing for HIV. I believe certain people become stigmatized by the tragedies of the HIV/AIDS epidemic...

@kennyeagon I'm glad you asked! When members of the TechChange Team travel for projects, we make a point of orchestrating a meet-up with our alumni. We'll be sure to let you know if when we travel to places around the globe. We also encourage participants to meet-up with one another if you are in the same [...] view
