TechChange

PLATFORM

TechChange Learning Platform
An Online Learning Platform that Cares About Pedagogy.

The TechChange learning platform was built by educators to meet the learning goals of organizations and people in the 21st century.

As a company, we believe in a few key principles:

- Doing is learning.
- People learn best together.
- Education is not bound to a given place or time.
- Better data results in better teaching.

Our platform is the product of both our belief in these principles and the feedback of over 20,000 students in hundreds of courses over the past 5 years.

DOING IS **LEARNING**

Gamification

- Learners receive immediate feedback on their progress.
- Points, badges, and more track learning progress in a visual way that incentivizes learners to further engage with content.

Broad Media Support

- TechChange supports videos, interactive HTML5/Flash, live streaming, audio clips, articles, PDFs, and more.
- Use the right medium to support organizational learning goals in the best way.
- Mix up the learning material to increase learner engagement.

REAL TIME INTERACTION

Real-Time Chat

- Students can chat in real time with other students.
- One-on-one chat and group chat options.
- Facilitators can engage with students directly.

Live Webinars

- Present to a virtual classroom full of people and take questions.
- Support for audio, video, screensharing, and slide sharing.
- Automatic archiving of videos for later viewing.

Conversations

- Engage with all learning materials.
- Channel the expertise and knowledge of participants to engage a community of learning.

EDUCATION **ANY TIME, ANY PLACE**

Language

- Offer learnings in any language.
- Full translation of the platform is possible.

Any Device

- Use a computer, tablet, mobile phone, or anything else with internet access and a modern web browser.
- No additional downloads required.

Low Connectivity

- Low bandwidth? No problem.
- The platform is optimized to work in low bandwidth environments.

BETTER **LEARNING DATA**

Learning Dashboards

- Track progress with charts and visualizations.
- Encourage learners to complete learning objectives.

Student Activity Tracking

- See what learners are doing as they do it.
- Figure out what's working and what's not to improve the learning experiences.
- Gather a large amount of quantitative data about each learner.
- Identify the learners who excel.

Course Evaluations

- Require learners to complete course evaluations to complete learning objectives.
- Hear, qualitatively, about the learner's impression of the learning experience.

WHAT **YOU GET**

White Labeling

Brand the platform to look like an extension of your organization. We will match your branding guidelines and work to create a seamless experience for your learners.

Secure Payments

Charge for your courses with our secure payment system. We integrate with Stripe and PayPal to provide a payment gateway for easy and safe payments no matter where you are in the world.

Registration/ Application Workflow

Use applications to gather information about learners. Then, accept, waitlist, or reject learners for a course with just a click.

Support

Receive support from our team of animators, educators, and developers to make sure you meet your learning objectives.

New Features

We are constantly releasing new features. You will receive new features as we complete them and invitations to test-drive new features while they are still in development.

Very true. Ever since the 1980s' HIV medications have unfortunately been unable to shake the stigma that they either have incredible side effects or aere "toxic". Today this isn't so much the case.

Micha Suarez: HIV+ persons for whom ART has been deemed appropriate may wait to start ART because they are afraid of the side effects. Some may be…

Santos Chavez wrote a new reply 1 month, 1 week ago
That is a great point. Ignorance can be bliss but it's interesting in that it also creates a prison of sorts.

Micha Suarez: Some people feel invincible and think HIV won't happen to them, especially given the stigma that surrounds it. Others are aware of their risks and are afraid to get tested because they fear the result will be positive –…

Micha Suarez wrote a new reply 2 months, 1 week ago
I don't work directly with clients but it is good to be well aware of the information and always put the client's needs first. Making the patient an active decision maker in their healthcare helps achieve better health outcomes.

How do I get notifications of webinars sent to my email address?

Melissa Margolis started a new topic 2 months, 1 week ago
Adherence Strategies In this module we discussed the importance of adherence to a treatment regimen to reach viral suppression and prevent transmission of HIV. What issues might affect an individual's treatment adherence?

Melissa Margolis started a new topic 2 months, 1 week ago
Retaining Clients Last week, we covered linkage to care and discussed how we help support our clients in accessing care and other services. It is of utmost importance to think how we link our clients to care when trying to increase our client's retention in care. What are your thoughts to help clients stay in care? What factors influence retention in…

Melissa Margolis started a new topic 2 months, 3 weeks ago
The Testing and Linkage to Care Plus (TLC+) model was designed to better connect newly-diagnosed HIV-positive individuals to treatment and social services. The goal of TLC+ is to remove barriers to care and improve health outcomes. What are best practices

CULTURE OF HEALTH LEADERS

HOME   NEWS FEED   MEMBERS   FORUMS

Welcome to the Leaders Lounge! ✎

Welcome! ✎ | Scavenger Hunt ✎ | Program Details ✎

Come on in!

Take a look around and get comfy! The National Program Center has created this online space for you to interact with us and your fellow leaders as you journey through this program. We are delighted you are here and are eager to support you in any way we can. This Lounge serves as the central hub for all the program's activities and it is also the space where you can connect with your fellow cohort members, coaches, facilitators, and the national program center team.

If you look at the top navigation bar where you name is located on the right, there is an area that tells you how many **Building Blocks** you have earned. As you go through the site, you will have the opportunity to earn Building Blocks whenever you complete specific activities, like posting on News Forums, completing your profile, responding to posts, etc.

We would like for you to become familiar with your surroundings, so we encourage you start with the **Scavenger Hunt**. You can set up your profile, post some thoughts, make new friends, and earn Building Blocks while you're at it!

So come hang with us for a while! And since you're here, why not get started with your **Scavenger Hunt**?

Scavenger Hunt

So let's get started with your adventure! In order for you to become familiar with this site, we encourage you to complete this short scavenger hunt. The activities included in this exercise will require you to set up your profile, post on the News Feed, start conversations, and RSVP for events.

Don't forget that you earn Building Blocks as you complete each activity, so let's get started!

Hello, I hope all is well. Does anyone use audio book software- audible, etc...? Looking for recommendation/comments on use?

Wesley Epplin posted an update 1 week ago
Hi all, I'm writing to share a recent letter to the editor that I wrote with my colleagues, Sekile and Tiffany, and was published the week of October 1, 2016 (I'm a little late w/ sharing it here). The letter was published in Crain's Chicago Business, a local business-oriented paper, as an indicator of our audience for this piece. Feedback...

Matthew Tinsley posted an update 1 week, 2 days ago
I'm trying to learn more about the Building Healthy Communities initiative established by RWJF and the Federal Reserve system. Was anyone here involved? Is it still active? The most recent info on the SF Fed web site seems to be from 2012

Robin Guenther wrote a new reply 2 weeks ago
I just posted a note about the book "Leadership and Self-Deception" in the news feed before I saw this Forum. It was mentioned in the session on Adaptive Leadership so I purchased it. I generally steer away from "leadership" books but found this one so intriguing, easy to read, and really helpful in terms of my own behavior and...

All Access Pass to Successful Tech Planning

Are you overwhelmed by technology? Relax. Take a deep breath. You've come to the right place.

Idealware, in partnership with TechSoup, is offering this practical, step-by-step Tactical Technology Planning learning track. This four-course technology planning track will help you get out of the technology doldrums so that you can assess your organization's technology infrastructure and address your current and future needs. Take the online training at your own pace, and use the associated activities and documents to help apply what you're learning to your own organization.

At the end of the learning track, you'll have a fully realized tactical technology action plan to guide your organization. *All course fees are nonrefundable.
